

TOP-REFILL System

Thinking of switching away from disposable aerosols?

Tired of trying to use refillable cans with separate manual steps for filling and pressurizing or other complicated manual refill procedures?

Then you are ready for the TOP-REFILL System!

The TOP-REFILL refillable spray can system is:

- simple to use
- high performance
- allows shops to reduce costs and become environmentally friendly

Why use a refillable spray can?

- Selling brake cleaner or automotive chemicals in larger containers improves margin and competitiveness
- No wasted brake cleaner due to disposal of partially empty spray cans
- Installing refill machines leads to improved customer loyalty
- Environmentally friendly

Why use the TOP-REFILL system?

- The TOP-REFILL system provides excellent price-performance
- The TOP-REFILL system is simple to use
- Unlike other systems, the TOP-REFILL system automatically depressurizes the cans before refilling
- The cans are rugged and can be refilled over 1200 times
- The TOP-REFILL system is a quality product “made in Germany “

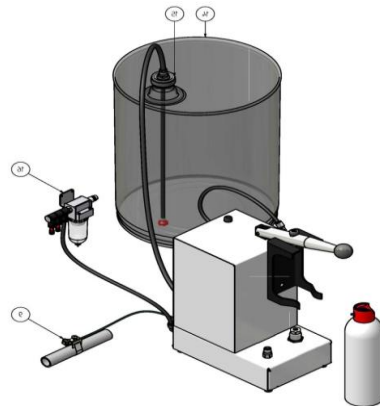

“With the new TOP-REFILL system, the technicians can refill their cans on the refill station fully automatically and in seconds. Our technicians are happy and we are saving money”

“The switch to refillable spray cans not only paid for itself, it generated extra cost savings in the first year “

“Our technicians find the TOP-REFILL spray cans easier to use than aerosol cans because the cans give a more predictable shot of product in any position. They are sturdy, high quality and can be refilled over and over again.”

How does it Work?

- The system runs completely on compressed shop air – no electrical parts.
- Brake cleaner is supplied in 5 Gal. pail or larger drum
- Compressed air is also used as propellant for the spray can
- Pressure automatically regulated by the refill station
- Easy 1-step refill process: put the can (top down) in the refill station; press and hold the lever for 10-15 seconds; finished!

To help you get started, we have introduced a special trial kit for new customers. The kit includes one machine and 5 cans for a specially reduced package price!
